Enthusiastic and detail-oriented Software Developer with a strong foundation in Python, Django, and Full-Stack Development. Currently pursuing a BSc. (Hons) in Computing at The British College. Experienced in backend development, API integration, and database management. Passionate about developing scalable web applications and implementing data-driven solutions.

EDUCATION

BSc. (Hons) Computing

Kathmandu

The British College

Sep, 2022 - Present

I am currently pursuing my degree in The British College.

NEB

Kathmandu

DAV College

Aug, 2019 - Aug, 2021

I passed my +2 Science(Biology with Extra Math) with 3.46 GPA.

SEE

Kathmandu

Valley Public Higher Secondary School

Mar, 2017 - Jul, 2019

I passed my SEE with 3.65 GPA.

PROJECTS

Database Systems

This project was given to me by The British College in my 3rd year Sem 1.

<https://github.com/shresthabibash810/Database-Systems>

School Management System Using DJANGO and its rest framework

Developed a School Management System using Django and Django REST Framework, implementing CRUD operations for efficient data management and backend functionality.

<https://github.com/shresthabibash810/School-Management-System.git>

Inventory Management System using DJANGO and its rest framework

Developed an Inventory Management System using Django and Django REST Framework, enabling efficient product tracking, supplier management, and API integration.

<https://github.com/shresthabibash810/Mindrizer-IMS-Project.git>

Data Analysis in Python

This project was given to us in our second semester of BSc.(Hons) Computing degree.

<https://github.com/shresthabibash810/Python-Data-Science-Task.git>

WebPage Design in Photoshop

This project was given to us in our second semester of BSc.(Hons) Computing degree.

<https://github.com/shresthabibash810/Webpage-Design-Photoshop.git>

Website Development

This project was given to us in our second semester of BSc.(Hons) Computing degree.

<https://github.com/shresthabibash810/Final-Assignment-Project.git>

Bank Management System with C++

This project was given as assignment in our first semester of BSc.(Hons) Computing degree.

<https://github.com/shresthabibash810/Bank-Management-System.git>

TRAINING/CERTIFICATIONS

MERN	2024
<i>The British College</i>	
Frontend and Backend development using React and Node js with database deployment using MongoDB	
Python with DJANGO	2024
<i>Mindrisers Institute Of Technology</i>	
Backend and API development using DJANGO and its Rest Framework	
Python for Data Science, AI & Development	2024
<i>IBM</i>	
Completed Python for Data Science, AI & Development through Coursera, gaining skills in data analysis, machine learning, and AI development.	
Digital Marketing	2023
<i>The British College</i>	
I completed this course on August 10th, 2023.	

AWARDS

Volunteer	Thapathali, Kathmandu
<i>TBC Career Fest 2023</i>	
2023	
I had done my volunteering in TBC Career Fest in 2023 AD.	

SKILLS

Communication, Time management, Team Work, Python and django, React with Node js, C, C++, JAVA, Python(FastAPI, Numpy, Pandas, Matplotlib,), SQL Joins and Queries, Data Consolidation, ETL (Extract, Transform, Load), Common Table Expressions (CTEs), Window Functions

LANGUAGE

Nepali, English, Hindi
